Experience/Projects

TextLooper (Link)
- TextLooper is a lightweight web tool that helps you repeat any text quickly with full control over formatting.
- Whether you need repeated lines for design mockups, language drills, or test content, TextLooper makes it easy: set your count, choose your layout, add numbering or bullets and generate.

Indyatra (Link)
- Visually driven travel landing page built to inspire adventure. It showcases popular destinations across India, styles of travel activities, and an easy way for visitors to connect.

QR Code Generator (Link)
- Developed a web application using HTML, CSS, and JavaScript that generates QR codes from user-entered text or URLs. Implemented features for instant preview and download of generated codes, ensuring a simple and user-friendly interface.
